ABOUT ME

Passionate web developer with experience in web technologies and UI / UX design, delivering quality work. Interested in Video editing, Photo editing, and content creation. I'm excited to look for new opportunities to further improve my skills and knowledge.

WORK EXPERIENCE

Teacher 2022-2023

Jalapa Secondary School | Khotang

Worked as the full time Computer Science teacher up to secondary level.

Ecommerce Website

We Care Medical Ecommerce

As a final year project, worked on the a web-based online eCommerce website from which people can order/buy different types of medicine and medical products. The front end of this website will be built with React.js, and the back end will be built with Django.

Website

Classroom Pvt. Ltd.

Developed the British army training center || Responsive (adaptable to all devices), with UI components and animated interactions.

Artificial Intelligence

Chatbot system

Developed a retrieval based chatbot system which uses artificial intelligence and natural language processing techniques to engage with customers and reply to their questions. They can answer the question by matching its pattern with the database.
